

HEALTH ECONOMICS AND OUTCOMES RESEARCH FELLOWSHIP

RUTGERS
Health Outcomes,
Policy, and Economics

PROGRAM STRUCTURE

YEAR

1

The Fellow will develop foundational knowledge and skills through didactic and applied learning.

The Fellow will spend four days per week at GSK working in the Global Value Evidence and Outcomes department and one day per week at the Center for Health Outcomes, Policy, and Economics (HOPE) at Rutgers University. The Fellow may enroll in graduate courses towards the Rutgers Master of Science in Health Outcomes, Policy, and Economics (MS-HOPE). Additionally, the Fellow will be encouraged to participate in a teaching activity at Rutgers and will be provided with opportunities to engage in academic research, publishing, and attend at least one national conference (virtually or in person).

YEAR

2

The Fellow will continue building upon the skills gained in the first year through didactic and applied learning, and will work with increased independence, responsibility, and leadership opportunities.

The Fellow may spend five days a week at GSK, transitioning out of academic research at the HOPE center. The Fellow may continue taking graduate courses towards the MS-HOPE program and will attend at least one national conference during the second year (virtually or in person).

LEARNING EXPERIENCES

The Fellow will have a broad experience in Global Value Evidence and Outcomes (VEO) by supporting asset development across the drug's life cycle from preclinical development to post marketing efforts spanning multiple therapeutic areas:

- Global value assessment of pharmaceuticals
- HEOR methodology
- Protocol development
- IRB processes
- Research contracting
- Study management
- Data collection and management
- Database analyses
- Scientific writing

CURRENT FELLOWS

2020-2022 Fellow
Ember Lu, PharmD

2021-2023 Fellow
Lexa Molinari, PharmD

WHO WE ARE

GSK is a global healthcare company with a special purpose: to unite science, talent and technology to get ahead of disease together. We prevent and treat disease with vaccines, specialty, and general medicines with ambition, accountability, and responsibility. Our goal is to be one of the world's most innovative, best performing and trusted healthcare companies. GSK's motivation is to positively impact the health of 2.5 billion people with our medicines and technologies over the next ten years.

RUTGERS

Health Outcomes,
Policy, and Economics

The Rutgers University Center for Health Outcomes, Policy, and Economics partners with scientists, clinicians and stakeholders from academia, pharmaceutical, biotech, and other marketplace innovators to conduct interdisciplinary research that produces relevant, meaningful health economic models and analyses to facilitate the adoption of cost-effective healthcare and improve patient outcomes.

"My experience at GSK and previous experience at Bristol Myers Squibb working with Rutgers Fellows has demonstrated that the pharmacist provides a unique perspective on value demonstration and incorporation in the marketplace."

On behalf of everyone at GSK, I invite you to consider joining our community dedicated to helping patients and progressing science, and I wish you the best of luck during the recruitment process."

John Graham, PharmD

Senior Vice President, Value Evidence and Outcomes

"As the program sponsor, I strive to provide an environment where the Fellows can leverage their strengths, pursue their ambitions and achieve their development goals. It is my passion to provide mentorship and make a positive impact in the professional journey of the Fellows."

Marcia Rupnow, PhD

Vice President, Value Evidence and Outcomes
Fellowship Sponsor

"The Rutgers University Center for Health Outcomes, Policy, and Economics (HOPE) and GSK have a close-knit partnership that offers an exciting fellowship program in Health Economics and Outcomes Research (HEOR). Our collaborative program combines academic HEOR training through the HOPE center with applied biopharmaceutical experience at GSK. This experience provides an integrated balance of conceptual research training, courses, and seminars with a unique opportunity to – firsthand – apply these skills in a real-world setting."

Zeba Khan, PhD

HOPE Program Director

APPLICATION & ELIGIBILITY

Selection of the Fellow will be on a competitive basis from a national pool of candidates with doctoral scientific and/or clinical training and a demonstrated interest in health economics and outcomes research.

Interested individuals may apply by submitting the following by **Thursday, October 28th, 2021 at 5pm EST:**

- Curriculum Vitae
- Personal statement describing your interest in the fellowship and the HEOR field (1 page limit)

Selected applicants will be invited to a first-round virtual interview in early November. Top applicants will be invited to a second-round virtual interview with additional colleagues from GSK and Rutgers HOPE.

Prior to the second-round virtual interview, top applicants will be required to submit an official university transcript and three letters of recommendation.

Applicants will be notified of the final decision by the end of November. The selected applicant will receive additional instructions on completing a job application through the Rutgers University online job portal.
