

HEALTH ECONOMICS & OUTCOMES RESEARCH FELLOWSHIP

RUTGERS

Health Outcomes,
Policy, and Economics

YEAR 1

Rutgers University

GlaxoSmithKline

During the first year, the Fellow will develop foundational knowledge and skills through didactic and applied learning. The Fellow will spend four days per week at GlaxoSmithKline working in the Value Evidence and Outcomes (VEO) team near Philadelphia. One day per week will be spent at Rutgers University's Center for Health Outcomes, Policy, and Economics (HOPE), a short drive away in central New Jersey. The Fellow will be immersed in GlaxoSmithKline projects and will enroll in up to four graduate courses towards the Rutgers Master of Science in Health Outcomes, Policy, and Economics. Additionally, the Fellow will be encouraged to participate in a teaching activity at Rutgers during the first year and will be provided with opportunities to engage in academic research and publishing. The Fellow will also attend at least one national conference during the first year.

YEAR 2

GlaxoSmithKline

During the second year, the Fellow will work at GlaxoSmithKline five days per week to further their educational and professional objectives and build upon the knowledge and skills developed in their first year. The Fellow will attend at least one professional networking meeting or conference during the second year.

The fellowship program provides robust learning experiences related to the science and application of health economics and outcomes research:

- Health economics and outcomes research (HEOR) methods
- Protocol development
- IRB processes
- Research contracting
- Study management
- Data collection and data management
- Analysis of large and small datasets
- Scientific writing
- Global value assessment of pharmaceuticals

ABOUT US

GlaxoSmithKline is a science-led global healthcare company with a special purpose: to help people do more, feel better, live longer. We have three world-leading businesses that research, develop and manufacture innovative pharmaceutical medicines, vaccines and consumer healthcare products.

We are committed to widening access to our products, so more people can benefit, no matter where they live in the world or what they can afford to pay.

RUTGERS

Health Outcomes,
Policy, and Economics

The Ernest Mario School of Pharmacy at Rutgers, The State University of New Jersey, is dedicated to excellence in healthcare and biomedical education, innovative and visionary research and scholarship in the pharmaceutical sciences, exemplary clinical practice, and outreach and community services that address the needs of the citizens of New Jersey and society at large.

The school has a historic and profound commitment to public service - to pharmacists, the pharmaceutical industry, the health care community, government agencies, and the citizens of New Jersey.

HEALTH ECONOMICS & OUTCOMES RESEARCH FELLOWSHIP

ELIGIBILITY

Selection of the Fellow will be on a competitive basis from a national pool of candidates with doctoral scientific and/or clinical training and a demonstrated interest in health economics and/or outcomes research.

HOW TO APPLY

Interested individuals may apply by submitting:

- Current Curriculum Vitae or Resume
- Letter of Interest
- Official University Transcript
- Three Letters of Recommendation

DEADLINE

The application deadline is December 15.
